Filed :	December 3, 1999	)
For :	CONFORMAL THIN FILMS	)
	OVER TEXTURED	)
	CAPACITOR ELECTRODES	)
Examiner :	R. Rocchegiani	)

**RESPONSE**

Assistant Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed on March 28, 2001, setting a three month term, please consider the following remarks.

**REMARKS/ARGUMENTS**

Claims 1-66 are pending in the application. Claims 36-54 have been withdrawn from consideration as a result of an election made by Applicants on February 14, 2001 in response to a restriction requirement. Claims 1-35 and 55-66 stand rejected by the Examiner on various grounds.

**Objections to the Drawings**

The Examiner objected to the drawings because the specification on page 4 refers to the electrode as '22a' but Fig. 1B labels the electrode as '22.' Applicants have submitted herewith a Submission of Drawing Corrections for Approval by the Examiner. Label '22' in Fig. 1B has been corrected to read '22a'. If the Examiner approves of the correction, this change will be incorporated in a Submission of Formal Drawings.
